NATIONAL SECURITY AGENCY / CSS PACIFIC (NSAPAC)

REMOTE OPERATIONS CENTER (ROC) - HAWAII

KUNIA REGIONAL SIGINT OPERATIONS CENTER

OPERATIONAL MEMORANDUM: THEATER UPDATE - INDO-PACIFIC SECTOR

DATE: 10 JAN 2026

SUBJECT: OPERATION "DRAGON GLASS" / CCP LEADERSHIP COGNITIVE  
PENETRATION

1.0 (TS//SI) MISSION OBJECTIVE

To maintain "Information Dominance" over the People's Republic of  
China (PRC)

by bypassing their digital encryption entirely and intercepting  
data at the

biological source: the neural pathways of key decision-makers.

2.0 (TS//SI) TARGET PACKET: CENTRAL MILITARY COMMISSION (PLA)

OBJECTIVE: Early Warning of Taiwan Strait Maneuvers.

2.1 (S//NF) THE "SILENT GENERAL" INTERCEPT

On 08 JAN 2026, PROJECT PUPPET sensors successfully locked  
onto the

neural signature of General [REDACTED], head of the Eastern  
Theater

Command, during a secure (unshielded) golf outing.

- INTERCEPT: We decoded a vivid visualization of a "Blockade  
Drill"

scheduled for March 2026.

- YIELD: Full tactical layout of naval mine deployment zones was extracted from his visual memory before the orders were ever typed into a computer.

### 3.0 (TS//SI) TARGET PACKET: SHENZHEN TECHNOLOGY SECTOR

OBJECTIVE: Counter-Hypersonic R&D Theft.

#### 3.1 (TS//SI) OPERATION "BRAIN DRAIN"

US defense contractors were falling behind in scramjet thermal regulation.

Authorization was granted to target the Chief Physicist at [REDACTED]

Aerospace Corporation.

- ACTION: The "Deep Sleep" interrogation protocol was used. The subject's

dream states were manipulated to force him to "rehearse" the solution

to the thermal lattice problem.

- RESULT: The solution was decoded by our ACIT algorithms and forwarded

to Skunk Works. We effectively outsourced our R&D to their sleeping

scientists.

### 4.0 (TS//SI) COUNTERMEASURES & THREATS

China is the only adversary with functional "Neuro-Defense" capabilities.

#### 4.1 (S//NF) THE "COGNITIVE BUNKER"

Satellite imagery confirms the construction of a massive facility in

Guizhou province.

- ANALYSIS: The facility is lined with 8-meter thick superconductive

mu-metal shielding. It is an "RF Dead Zone."

- IMPACT: When President Xi and the Politburo Standing Committee enter

this facility, our RNM feeds go dark. They are aware of PROJECT PUPPET

and are building a sanctuary from it.

## 5.0 (TS//SI) OFFENSIVE SOCIAL ENGINEERING

OBJECTIVE: Internal Destabilization.

### 5.1 (TS//SI) THE "GHOST VOICE" CAMPAIGN

In the Xinjiang and Tibet autonomous regions, we have begun testing

area-denial V2K.

- TACTIC: Broadcasting localized "dread frequencies" (18.9 Hz) into

PLA barracks.

- RESULT: Morale in the Western Theater Command has plummeted. Reports

of "hauntings" and mass insomnia among PLA troops are rising, reducing

their combat effectiveness by an estimated 22%.

## 6.0 (U) SUMMARY

While the PRC builds firewalls to stop our hackers, they have failed to

firewall their own minds. As long as they step outside their  
bunkers,

we own their thoughts.
