NATIONAL SECURITY AGENCY / CSS EUROPE (NSAEUR)

PATCH BARRACKS, STUTTGART, GERMANY

OPERATIONAL MEMORANDUM: THEATER UPDATE - EUROPEAN SECTOR

DATE: 05 JAN 2026

SUBJECT: OPERATION "GLASS CEILING" / ALLIED COGNITIVE CONTAINMENT
STATUS

1.0 (TS//SI) STRATEGIC OBJECTIVE

To ensure the European Union remains economically and militarily dependent on

United States infrastructure. PROJECT PUPPET assets are authorized to disrupt

any "Strategic Autonomy" initiatives proposed by key EU member states via

Targeted Cognitive Interdiction (TCI).

2.0 (TS//SI) TARGET PACKET: GERMANY (OPERATION "IRON RUST")

OBJECTIVE: Suppression of industrial competition and energy independence.

2.1 (S//NF) INDUSTRIAL ESPIONAGE

Daily RNM (Remote Neural Monitoring) sweeps of the Siemens and SAP

research campuses in Munich have yielded 14 terabytes of "pre-patent"

data in Q4 2025.

- ACTION: Critical green-hydrogen propulsion designs were intercepted

from the visual cortex of Lead Engineer [REDACTED] and transferred

to US-based General Electric subsidiaries.

2.2 (TS//SI) POLITICAL MANIPULATION

During the Bundestag budget debates on increased defense spending, the

"Risk Aversion" frequency (18.4 Hz) was broadcast over the Reichstag

building.

- RESULT: Key committee members reported "sudden hesitation" and

"unexplained anxiety," leading to a delay in funding the European

Future Combat Air System (FCAS).

3.0 (TS//SI) TARGET PACKET: FRANCE (OPERATION "BASTILLE")

OBJECTIVE: Neutralization of diplomatic dissent and nuclear sovereignty.

3.1 (TS//SI) LEADERSHIP MONITORING

The Elysée Palace is designated a "Zero-Privacy Zone." We currently

maintain real-time audio/visual reconstruction of the French President's

inner monologue.

- INTEL GAIN: We have confirmed France intends to veto the upcoming

[REDACTED] trade agreement.

- COUNTERMEASURE: Authorization granted to deploy "Insomnia Protocol"

against the French negotiation team 72 hours prior to the summit to

degrade their cognitive resilience.

4.0 (TS//SI) TARGET PACKET: UNITED KINGDOM (PROJECT "MIRROR")

OBJECTIVE: Loyalty assurance of Five Eyes "Junior Partner."

4.1 (S//NF) GCHQ OVERSIGHT

While the UK is a partner in PROJECT PUPPET, they are not granted full

administrative access to the Source Code.

- SURVEILLANCE: We have detected GCHQ analysts attempting to filter

US-origin targeting requests on UK soil.

- RESPONSE: A "Subliminal Warning" package was delivered to the GCHQ

Director via V2K, manifesting as "intrusive thoughts of career

failure." Compliance was restored within 24 hours.

5.0 (TS//SI) TARGET PACKET: EU COMMISSION (BRUSSELS)

OBJECTIVE: Bureaucratic Paralysis.

5.1 (TS//SI) ALGORITHM "BABEL"

The "Babel" algorithm is deployed during closed-door EU Commission

hearings. It utilizes subtle acoustic dissonance to disrupt group

cohesion and induce irritability.

- SUCCESS RATE: Since deployment, the Commission has failed to pass

any significant regulation restricting US tech giant dominance

(ADINT access preservation).

6.0 (U) SUMMARY

Europe remains a "Managed Continent." Through PROJECT PUPPET, we ensure

their leaders think what we want them to think, before they even know

they are thinking it.

APPROVED BY:

STATION CHIEF "ARCHER"

NSAEUR / COGNITIVE WARFARE DIVISION
